

Special Announcement from GMS Counselors:

Course registration is open and students are currently participating in course selection lessons with the GMS counselors. Parents can review the course selections with their child through their Student Vue account. Every student should be able to walk their parent or guardian through the course registration process. If you have any questions you can call your child's grade level counselor. Please keep in mind lessons will be taking place through March 8th so some students may not have had the lesson yet.
